GCET Team participated in GO Kart Competition

- The team of students participated in Go-kart event, organized by Mechjunction Pvt. Ltd. Pune.
- The main task was to design and develop a car model and participate in the completion.
- It was a tough competition there. GCET team cleared all the rounds but in the last race which was called the Endurance round, GCET team knocked out because of mechanical failure in our Go-Kart model.
- Finally, GCET team secured 11th position amongst 34 teams. It was our first time participation from GCET, but still it was a huge success. The model is developed in workshop of GCET. GCET provided financial assistance in developing car model.
